Borah Says Russian Operations Prove Aid to Japan

SHOWS LAW DISREGARD

Sherman Assails Intention to Call Congress of Labor.

PROPOSE NEW RESERVATION

McCumber Offers a New Resolution of Milder Declaration.

WASHINGTON, Sept. 5.—President Wilson's address to the country in support of the peace treaty and league of nations evoked prompt and spirited replies today from the Senate floor.

Senators Borah, Idaho, and Sherman, Illinois, republicans, assailed statements by the president as "diplomatic and foolish." On the other hand Senator McCumber, republican, North Dakota, asked the treaty reservations adopted yesterday by the foreign relations committee and presented six substitute reservations as expressing views of republican senators favoring reservations of "mild" type.

Referring to the president's statement of his intention that under the league "we can limit other people's business," Senator Borah criticized American military operations in Russia, declaring such to be "a usurpation of power" without authority under the constitution and for the purpose of aiding Japan's Siberian revolt.

Resents Assertion

Senator Sherman resented the president's statement to Columbus that the international labor conference authorized under the peace treaty would be held here next month regardless of whether the senate had ratified the treaty by that time.

The president's attitude showed a "contemptuous disregard of law," the Illinois senator said.

In presenting his proposed substitutions he said of the resolution, Senator McCumber spoke only briefly. In lieu of the committee's reservation to article 19 of the league's covenant, he proposed a reservation merely declaring that specific action be required from congress to make territorial guarantees effective and that failure of congress to act as proposed by article 19 would not be deemed a violation of the covenant.

The committee's reservation to article 19 of the league's covenant, he proposed, would have limited the operation of the wartime law to six states in which legislation cannot be enacted.

As it passed the senate and goes to conference, the bill defining an intoxicating drink containing more than one-half of 1 per cent of alcohol, the senate modified however, some of the most rigid provisions of the house bill, including that affecting private stocks of all alcoholic beverages held for personal use.
